1. A. Go to . Enter your model number and click Search button or select a Product Group Labeling Systems, the Model, and then click on the Go button. 3. Under Download & Drivers, click on Downloads on our Online Solution Center. 4. Select your Operating System (OS Family) and OS version, and then click on the Search button. 5. Under Editor Tool, click PTouch Editor 5.x link. 6. Read the End-User License Agreement then click Agree to the EULA and Download. 7. Enter the last 9 characters of the Serial Number - can be found in the rear of the machine - and then click Submit button. For Windows Operating System: See steps 8-12. For Macintosh: See steps 13-15. Note: Steps below are setup for using Windows Internet Explorer browser. 8. Click Save button. 9. Click Open folder button. 10. Double click on the downloaded file to start the installation. Note: If you have the previous version of PTouch Editor 5.0, this program will uninstall it. 11. Proceed with the PTouch Editor installation; follow the default prompt steps until the installation is completed. 12. After installing the PTouch Editor successfully, you can delete or remove the downloaded file. For Macintosh Operating System: 13. Click on the Downloads icon next to the Trash icon below and then click on the pem###us.dmg file. 14. Double click on Brother PTouch Editor #.pkg icon below to proceed with the installation process; follow the default prompt steps until the installation is completed. 15. After installing the PTouch Editor successfully, you can delete or remove the downloaded file by placing it into the Trash icon. 1. Download the Printer Driver or Add Printer Wizard Driver from . Click here for instructions on how to navigate to our downloads page. 2. Once the driver has been downloaded, you will need to extract it. How to extract the printer driver a. Double-click on the file that you ZIP Self Decompression window will appear. b. Click Browse, or type a path to the location where you'd like to save this file. c. Click Decompress. d. Click OK, once the decompression is successful. e. Be sure to note the path where you saved the file, because you'll need to know this later. 3. Based on your connection method, do one of the following: Local connection users (USB) a. Connect the interface cable between your machine and your computer. The cable should be no longer than 6 feet, and connected directly between the two devices. Don't use a parallel-to-USB adapter cable. b. Turn on your machine. c. Click Start (All apps) Windows System Control Panel. d. Under Hardware and Sound, click View Devices and Printers. e. Click Add a printer. f. Click The printer that I want isn't listed. g. Choose Add a local printer or network printer using manual settings and then click Next. h. Select Use an existing port. i. You'll need to select a communication port. A Select a port labeled USB00X (The last 3 characters will be a number) and then click Next. A If the USB port is not listed, then your computer and machine are not communicating or there is a problem with your computer. A Try another USB cable or other ports on the computer. A Don't attempt to create a port, the correct port should be created automatically. j. Go to step 4. Network connection users a. Turn on your machine. b. Make sure that your machine is connected to your network. c. Click (All apps) Windows System Control Panel. d. Click View Devices and Printers, under Hardware and Sound. e. Click Add a printer. A The computer will begin searching for an available network printer. f. Even if your machine appears in the list, click The printer that I want isn't listed. A This step will prevent the computer from re-adding the generic driver, which doesn't offer full functionality of the machine. g.
